Turn Your Body Into A Fat Burning Machine. With Slender Fit U you can lose up to two pounds of fat per day without exercise, diet pills or packaged foods – and keep it off.

The Slender Fit U program is a medically supervised, completely safe and extremely effective weight loss program. By using a tiny dose of HCG and following a very specific, low calorie diet, Slender Fit U's simple program causes your body to break down fat, easily and comfortably providing your body with much needed fuel.

Unlike other "diets," this program reshapes and re-sculpts the body releasing abnormal fat deposits. Every pound you lose is a pound of fat, not muscle mass or water. You will lose multiple inches and dress or pant sizes.

The best part is, after successfully completing the medically monitored weight loss program you will reset your metabolism to help maintain weight loss.
